Ordering New Lifelines

The easiest way to order new lifelines is to remove them and have us duplicate them. Make sure the pulpit, pushpit, and all stanchions are securely in place. Mark the threads with tape to show how the lifelines are properly adjusted on your boat. Remove and send the old ones to us and we will ship a new set, usually within a day or two. Or, download the lifeline order form from our website at

www.sailingservices.com and fill in all required information. Make sure you measure each side independently with a metal measuring tape. Do not use string or fabric tapes. Make sure you note the correct diameter and direction of the thread for all studs and adjusters. Call our sales staff at 1-800-458-1074 if you have any questions.

Adjustable Fork - Short Adjuster

Type 316SS. Sometimes used instead of turnbuckles for short runs that need less adjustment. These are supplied with left hand threads. Usually measured 2/3 open.

Wire Size	Pin Size	Thread	Part Number	Price
1/8	1/4	1/4-28	LAFS0408	18.44
3/16	1/4	1/4-28	LAFS0608	19.18
